Ehud Hausman heads the hi-tech department of Reinhold Cohn Group, a department which handles a wide range of technologies including physics, software, hardware, electronics, medical devices etc. Ehud has extensive experience in various aspects of intellectual property, including strategic consultation on the management of intellectual property assets for multinational companies, leading industrial companies and start-up companies. He has gained professional experience as a software engineer in various capacities in the hi-tech industry. Ehud specializes in protecting inventions in the fields of computer science, physics and electronics, specializing, in particular in: communications and telecommunications, internet, cellular technology, databases, multi-media and other software, hardware, and integrated systems and processes; semiconductor devices and semiconductor related processes; medical devices and methods of doing business.

Ehud is personally commended in several international guides such as: Chamber & Partners Global, Expert Guides (Patent Law Practitioner) and European Legal Experts (IT and telecoms category). In addition, Ehud lectures on intellectual property at Israeli academic institutes and additional forums. Ehud was a member of the Committee for the Introduction of Law for Protection on Topographies of Semiconductor Devices (appointed by the Minister of Justice).

Education: B.A Computer Science, 1986, Technion - Israel Institute of Technology (cum laude); M.Sc. Computer Science, 1989, Technion - Israel Institute of Technology; LL.B., 2003, Interdisciplinary Center, Herzliya.

Memberships: Israel Bar Association; Association of Israel Patent Attorneys; AIPPI (Israel Section); FICPI (Israel Section).
